## JAMES J. HILL DEAD; RAILWAY KING HAD A REMARKABLE CAREER

(Continued from First Page.)

extended it into one of the greatest transportation systems in the world creating a line of commerce from New fork State to Asia.

Fifty years ago Hill was a dock elerk in St. Paul-practically penniess. He died leaving a fortune of millions. Born near Guelph, Ont., Sept. 16

1838, Hill had perhaps less than the average early opportunities. His parents, James and Anne Hill, were plain and hard working Scottish and North o. Ireland stock.

The magnate's early boyhood dream of becoming a great surgeon was blasted when he was fifteen by the death of his father, which sent him to work. For three years he worked to work. For three years he worked in a country grocery store near his home.

HIS FIRST STEP IN THE RAIL-ROAD BUSINESS.

of from 35,000 to 40,000 telegraphers employed for the most part by the Western Union.

The Executive Committee brought before the convention for action the

grievance of ten telegraphers of Bos-His dreams of bigger things than come to the United States. It was cording to their story, than the dis-in July, 1865, that he reached St. covery of their membership in the Paul. Then the railroad system of Paul. Then the railroad system of the Northwest ended at Galena, Ill.

Communication with that point, just dept S. J. Konenkamp of the union said he thought the convention would authorize any action the committee members advocate a general coach in winter and by steamboat on recommended. the Mississippi River in summer.

Without technical preparation of any sort Hill took a job as clerk in the office of the Mississippi River Steamship Company, which he held for nine years. Then he became agent for the Northwestern Packet Company.

Two years later the same year he narried Miss Mary Theresa Mehegan of St. Paul-he went into the general only railroad entering St. Paul-his first railroad job. Because of the application and per-

sistent study of commercial conditions in Southern Minnesota, Hill in 1869 headed the Hill-Griggs Transportation Company, which also handled fuel. It was in 1870, however, that he took the first step in the

## THE QUIET INQUIRY OF GENUINE CONCERN

THE FEAR THAT IMPENDING DANGER CREATES. Americans are inclined to treat

lightly the possibility of attack and it is not until realization is forced upon them that they begin to think

of their personal welfare.
At probably no period in years has there been such a demand for tonic foods, which indicates impoverished physiques due no doubt to a winter of unusual severity.

Johann Hoff's Malt Extract has

for 50 years been acknowledged throughout the civilized world as a tonic food unequalled. Taken with meals, this delightfully palatable body builder will be found equally beneficial to men, women and chil-dren. Not only makes rich, red blood and builds up the tissues but in addition possesses digestive properties that have been endorsed by high medical authorities. Can be procured from any reliable drug-gist and nothing but the genuine Johann Hoff's should be accepted.—

bought the defaulted bonds from the

APOLIS AND MANITOBA ROAD.

The three promoters raised money

and in May, 1879, organized the St.

Railroad, with a capital of \$15,000,000.

Branches and feeders were thrown

network of lines in Minnesota and

ganized to merge all branches and feeders that had become too large for the limitations of the Manitoba line.

The same year the line under Hill'

transcontinental railroad system, was

the next step in his building career. In the mean time the Northern Pacific, a second St. Paul to the coast

line, had been put through.

But a Chicago to the coast line was needed and in 1901 the Hill interests,

needed and in 1901 the Hill interests, represented by the Great Northern and the Northern Pacific, bought the Chicago, Burlington and Quincy Company. In 1907 the fourteen railroads operated subsidiary to the Great Northern were purchased by the Great Northern and operated as a part of the Great Northern system.

In addition to his railroad activities Mr. Hill built great elevators at Buf-falo and created lines for cheap and quick freightage from the farms. He

then organized a fleet of steamships on the Pacific and carried his trans-portation scheme into the Orient and

oullt up a great commerce between Japan, China and the United States.

During the past year he interested mself in the allies' billion dollar
